

# Expansion Tools

Thank you so much for taking the time to download Expansion Tools!

My name is Samantha and I am a mom to a busy, active, spunky little boy! I am a work from home mommy who is also blogging full-time.

Once my son began staying home with me full-time, I realized I needed to continue working on his developmental milestones utilizing various activities and handouts.

Developing fast, easy to read tools was key in keeping up with his needs!

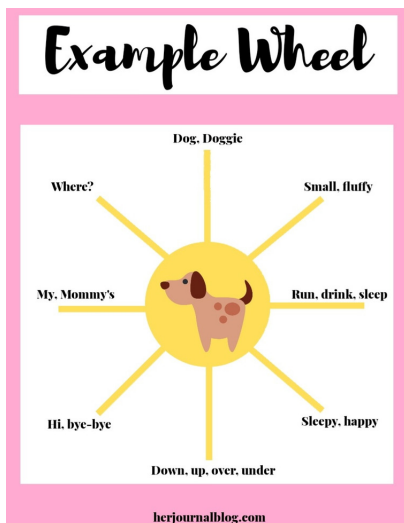

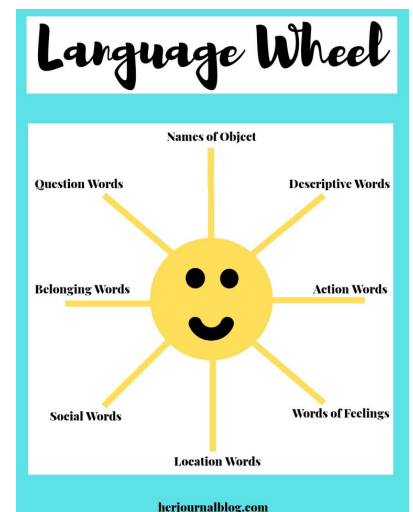

In Expansion Tools, you will find a language wheel followed by example wheels. Use these tools to easily structure language expansion opportunities throughout your day.

Don't forget to share this with other families to help them expand on their child's language development!

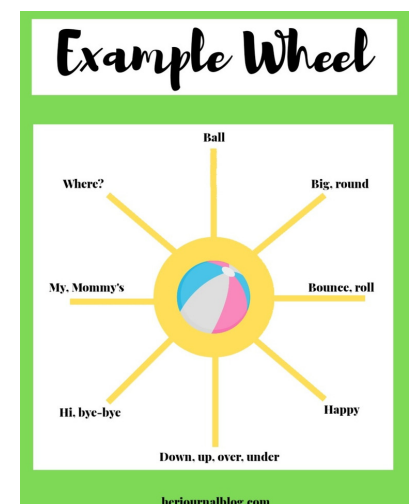

# How to Use

Expansion Tools freebie is designed in partnership with Alexandra Lodwig, MS, CCC-SLP to help you include expansion opportunities into your everyday life to naturally and easily expand on your child's language development.

Use this page to understand the structure and purpose of a Language Wheel

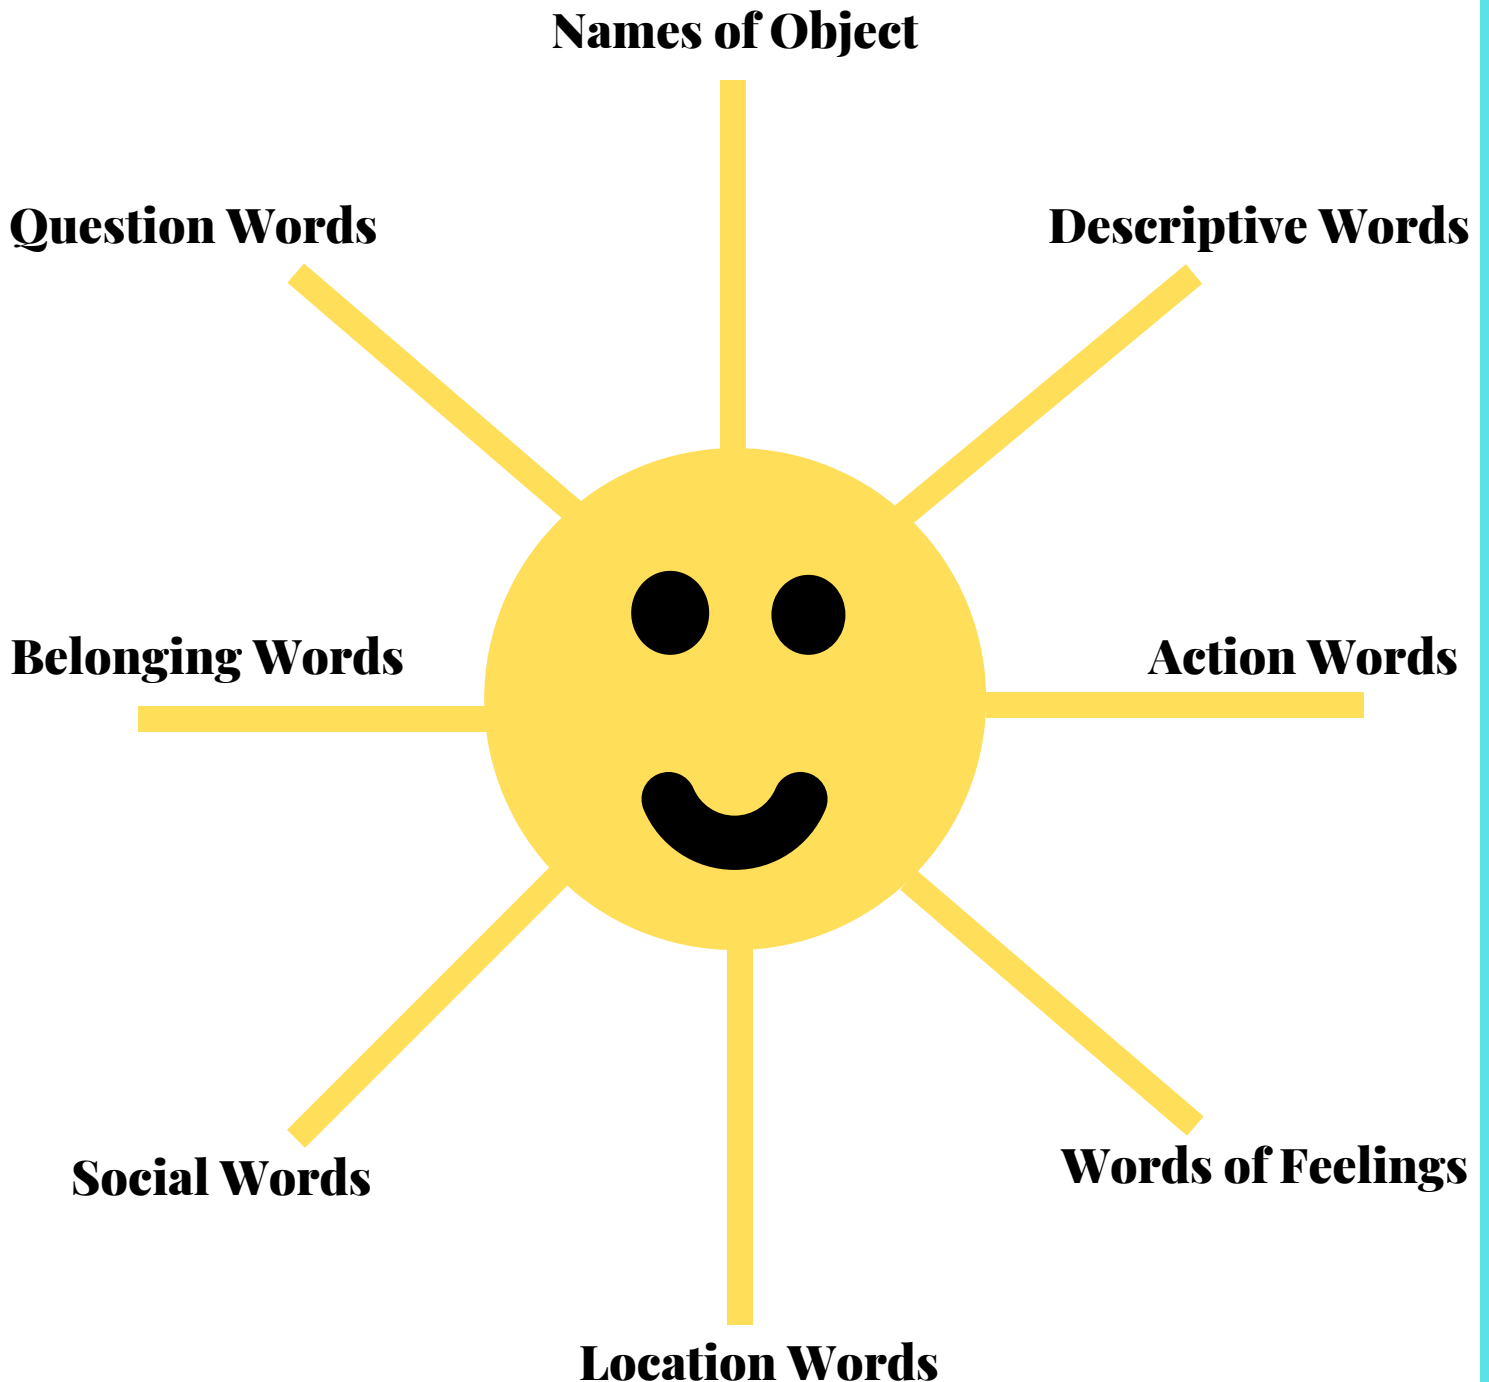

This page provides an example of how to incorporate expansion using the Language Wheel

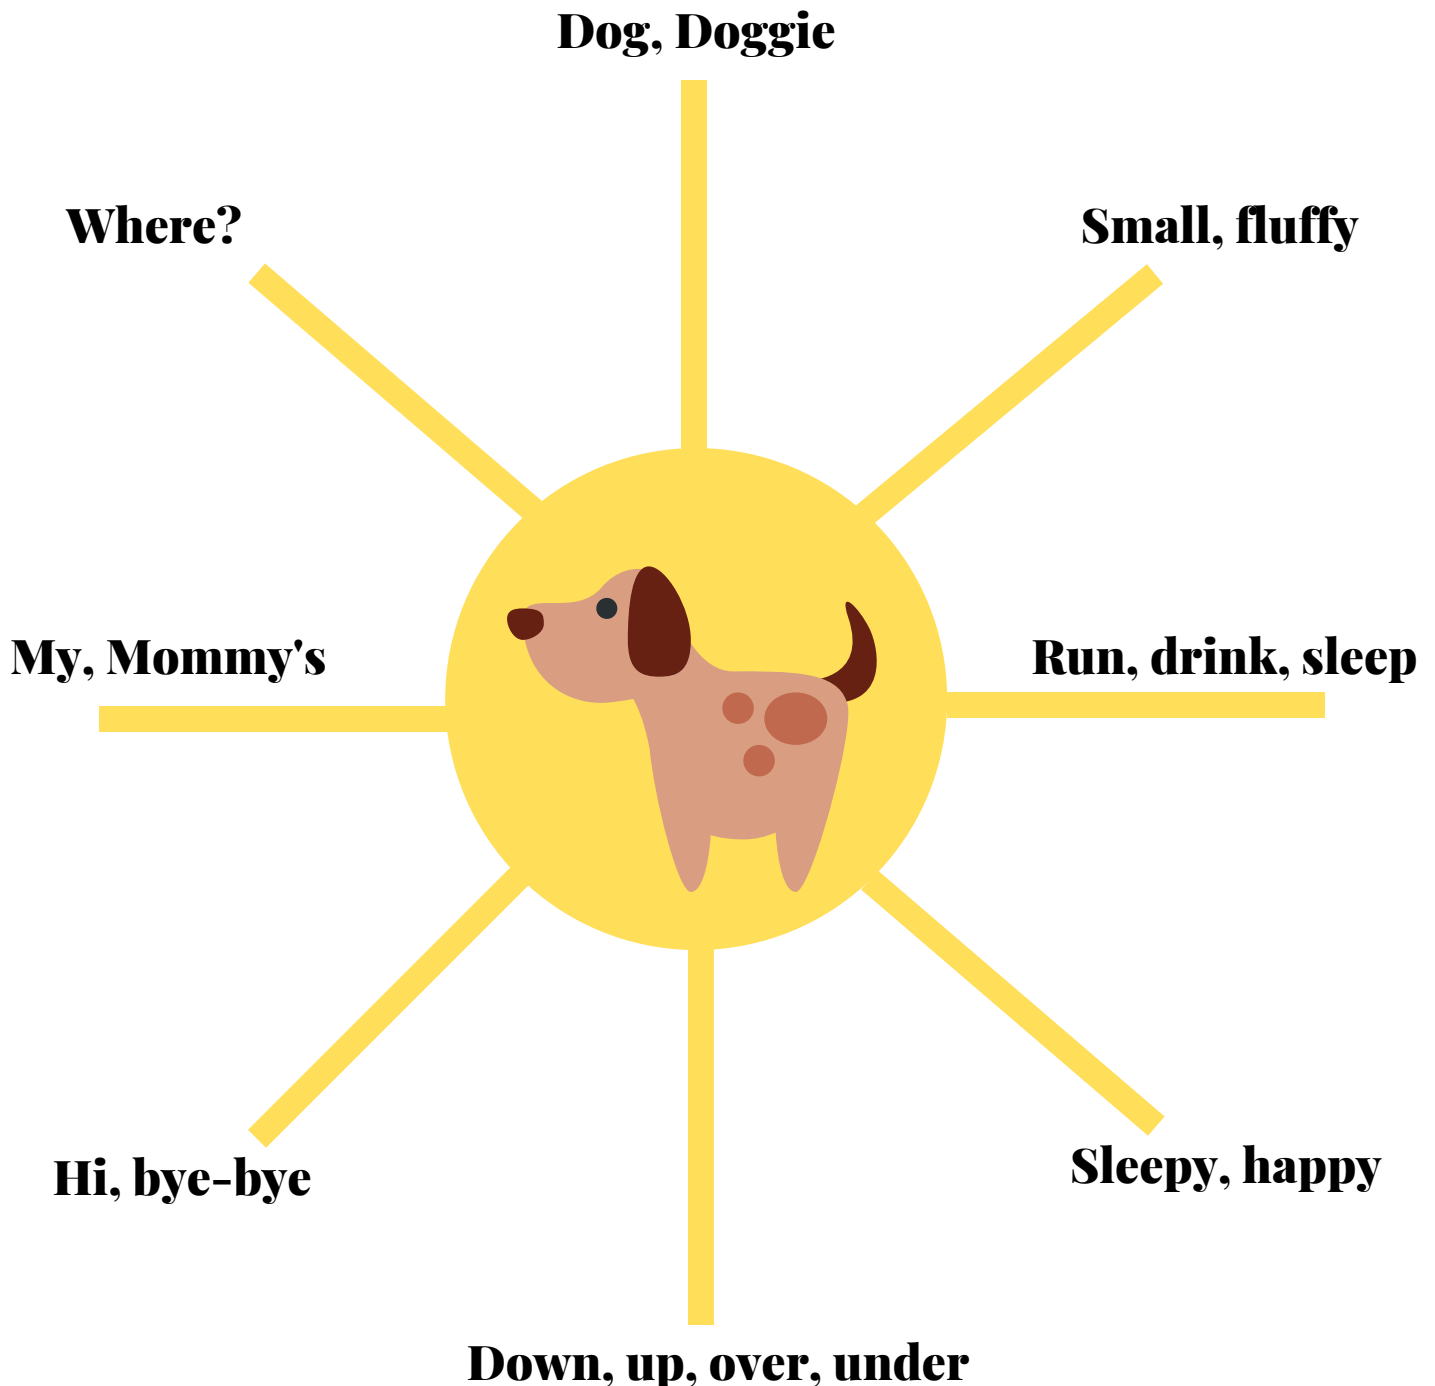

This page provides a second example of how to incorporate expansion using the Language Wheel
